To the Patients of Pacific Northwest Eye Associates:

Thank you for your patience as we continue to navigate the challenges of taking care of patients in the era of COVID. The staff of PNEA will continue to work hard to make your visit to the office as safe as possible. An additional challenge as we enter the fall and winter season is separating COVID symptoms from those related to the common cold or flu. To ensure the health and safety of our staff and patients, we would like to remind everyone that all patients with cold or flu-like symptoms, and especially those with elevated temperatures should refrain from coming into our offices. Once symptom free, our Patient Service Representatives would be more than happy to quickly reschedule your appointment.

It takes all of us doing our part in order to control the spread of the Coronavirus. So, if you feel unwell, please stay home and take care of yourself. We will be here to take care of you when you get better.
